

1st Nordic Hands-On Course in Intracorporeal Urinary Diversion

November 5th and 6th 2015
Institute of Clinical Medicine
Aarhus University Hospital, Denmark

Program

Day 1 .5th of Nov. 2015

08.00 – 10.00 Introduction and briefing on course

- How to operate on a pig
- Cystectomy procedures, intracorporeal and extracorporeal urinary diversion, neobladder and ileal conduit
- Intracorporeal staplers (Jesper Vejlin, Covidien)

10.00 – 11.30 Robotic Training on pigs (all participants):

- Theoretical and practical port placements
- Exposure and clamping of the ureters
- Intestinal stapling and ureteroentero-anastomosis

11.30 – 12.00 Lunch

12.00 – 14.00 Robotic (3) and laparoscopic (3) training on pigs

- Intestinal stapling and ureteroentero-anastomosis

14.00 – 14.30 Coffee Break

14.30 – 16.30 Robotic (3) and laparoscopic (3) training on pigs

- Neobladder

16.30 Debriefing

Explore Aarhus City on your own ☺

Day 2 .6th of Nov. 2015

08.00 – 08.15 Introduction

- Sutures for ureteroenteric anastomosis (Lars Andersen, Covidien)

08.15 – 12.00 Robotic (3) and laparoscopic (3) training on pigs

- Intestinal stapling and ureteroentero-anastomosis
- Neobladder

12.30 – 13.00 Lunch

13.00 – 15.45 Robotic (3) and laparoscopic (3) training on pigs (cont.)

15.45 – 16.00 Evaluation and adjourn

No. of participants is limited to 6 (preferably consultants or senior registrars with special interest in robotic surgery and urinary diversion)

Fee: DKK 6.500,- (€ 870,-) (Covers lunch, beverages, pigs and medical equipment)

Faculty: Pernille Skjold Kingo, Lotte Kaasgaard Jakobsen
and Jørgen Bjerggaard Jensen

Link to binding registration can be found at www.nuf.nu/courses.html
